

Notes

- Combine both chats into one chat
- Match users if two are online, show offline search results otherwise
- Make sure search doesn't show people you've already chatted with
- Look for api for audio with chat
- Update design doc based on comments
 - Make it objective; right now it sounds like a pitch
 - purpose should fit into phrase: "I use Pangaea to..."
 - Concepts doesn't have to be data model
 - Have less concepts: why is Pangaea unique?
 - Should Concepts should be more of a novel idea
 - Fix data model - exchange points to Users, not user ideas
 - Change paragraphs to smaller chunks
 - Flow diagram
- look at gridfs for large files
